

Information about Kitchen & Cocktails

The beautiful Strömparken where Kitchen & Cocktails is located was created in the 1920s. The lush park is located on excavated earth from the expansion of Holmens Bruk's power station at Bergsbron and was completed in 1923.

In Strömparken, also known as Refvens grund, a cold bathhouse was built in the water in 1868 and followed by a hot bathhouse in 1892. The hot bathhouse with swimming pool was located in the Gåsen block. The Gåsen apartment building was built in 2007 and is now home to the Kitchen & Cocktails restaurant.

The restaurant was completely renovated and reopened on February 24, 2023. Kitchen & Cocktails is eclectically decorated where we mixed different styles and motifs, old and new, to create a unique and cozy environment. We want our restaurant to be the extended (slightly different) living room. Here you should be able to come with friends, acquaintances, families, colleagues and be able to relax to good food & drink.

In the kitchen at Kitchen & Cocktails, each dish is created with carefully selected ingredients and presented with an artistic touch where the chefs use their creative skills.

On the drinks side, our bar team has strived to create a unique cocktail menu with unique and exciting flavor combinations and topped with everything from coconut foam, dried fruits to fresh edible flowers.

PS. According to hearsay, there was a caretaker who took care of the hot tub in the 1800s and as it is said today, this house is haunted. Tenants living above us have occasionally smelled a chlorine/bathhouse scent in their apartment and our staff sometimes see a figure walking in the basement. Sometimes the music volume is raised by itself in the restaurant and plates fall to the floor. Could it be our old caretaker who is haunting...

Welcome to us at Kitchen & Cocktails for a
tasty experience in both food & drink!
