MENY

About Kitchen & Cocktails

The beautiful Strömparken, home to Kitchen & Cocktails, was created in the 1920s. This lush park was built using excavation debris from the expansion of the Holmens Bruk power station at Bergsbron and was completed in 1923.

In Strömparken – also known as Refvens grund – a cold bathhouse was constructed out in the water in 1868, followed by a heated bathhouse in 1892. The heated bathhouse and swimming hall were located in the block known as Gåsen. The residential building Gåsen was built in 2007 and is where Kitchen & Cocktails is located today.

The restaurant underwent a complete renovation and reopened on February 24, 2023.

Kitchen & Cocktails is eclectically decorated, blending various styles and themes – old and new – to create a unique and cozy atmosphere. We want our restaurant to feel like an extended (and slightly different) living room. A place where you can relax and enjoy great food and drinks – with friends, family, colleagues, or acquaintances.

In our kitchen, every dish is prepared using carefully selected ingredients and presented with an artistic touch, where our chefs showcase their creativity.

On the drinks side, our team has aimed to create a distinctive cocktail menu with exciting and unique flavor combinations, featuring everything from coconut foam to dried fruits. We also take a step back in time, mixing retro cocktails from the '80s and '90s.

P.S. According to local legend, a caretaker who once cared for the bathhouse in the 1800s is said to haunt the building. Residents living above us have at times reported the scent of chlorine or a swimming pool in their apartments. Our staff occasionally sees a shadowy figure in the basement. Sometimes the music volume suddenly increases, or plates mysteriously fall to the floor... Could it be our old caretaker paying us a ghostly visit?

Welcome to Kitchen & Cocktails

for a flavorful experience in both food and drinks!
